

Scrum Notes 11/13

13 NOVEMBER 2018 / 2:00 PM

ATTENDEES

TJ - present

Peter - present

Mariah - present

Brian - present

Michael - present

Kori - present

Braden - present

Ali - **not present**

AGENDA

Meeting

- Not much to go over this week because most things are done

New Business

- Michael will make the Burndown chart
- Make sure whatever product you have is ready to be tested by Prof. Kath's inspection. This means that when Prof Kath is checking your product that it is ready to go and there is no need to fidget with your code or product. This will ensure that Sprint#1 inspection goes smoothly and the less fidgeting we do the less he will need to do a detailed look at our code.
- Get on Github by Monday afternoon

NOTES

- Current Progress
 - Parser and Shapes are done for Sprint #1 Benchmark
 - Braden Has vector done with the Valgrind check

Order of Business

- Work on research frontend code

NEXT WEEK'S AGENDA

Have things packaged up nicely for Prof Kath to show him.
